COMPANY OVERVIEW

The DVH group is a national group of young dynamic attorney practices with offices situated in the Western Cape, Gauteng and Kwa Zulu Natal. Each company has its own directors and is BEE compliant.

The DVH group specialises in conveyancing and all other aspects of Property Law. Over the years, the directors have built up vast experience in the field of Property Law enabling the DVH group to assist clients and developers with the structuring of their transactions. They are

also actively involved in providing legal training in the field of Property Law to contribute to and help develop the Property Industry.

The various companies utilise the latest technology and continue to develop their own technology including a live internet reporting system that keeps clients informed day and night of the progress of their property transactions and a transfer and bond registration cost calculator which is used on the cell phones of selected clients.

For the convenience of clients and to expedite registrations, each of the companies have employed a number of Commissioners of Oath and conveyancers who are responsible for visiting the homes or offices of clients to sign up transfer and bond documents. In addition, staff is employed to go to, amongst others, the Deeds Offices, Local Councils, the SARS offices and to the Banks daily to ensure a faster flow of documents and further expedite every aspect of the property transactions. We are conveyancing attorneys specialising in, property law, transfers, bond registration and legal training.
